

## SECOND SKIN PROSTHETIC BODY SHEATH

The Second Skin (Skin<sup>2</sup>) prosthetic body suit is a total body sheathing solution that protects, enriches, monitors and medicates your biosystem.

### Skin<sup>2</sup> conforms

Step alongside your Skin<sup>2</sup> Body Sheath and patented biofiber technology eases into place sensing every contour and crevice of your body and conforming itself to your unique shape in just seconds. With a few simple taps using your smart implants, you can control the tension and contours to show-off as much or as little as you desire. Need a rain hood, or extra pocket? Just tap your smart implants, draw the shape you need to add, or just press the next to Skin<sup>2</sup>. Your second skin will silently and seamlessly enfold your item — up to 20 cubic cm.

### Skin<sup>2</sup> protects

Your second skin now shields you from harmful rays and pollutants, rain and toxic sprays. Should a sharp object or obstruction tear the super-strong fibers, self-healing nano programs will reassemble the tear — up to 11cm and reseal the opening. Should you suffer a wound to the flesh, Skin<sup>2</sup> will seal the wound, apply localized pressure, a natural endocrine anesthetic, and administer any necessary antibodies.

### Skin<sup>2</sup> enriches, monitors and medicates

Beneath your fully breathable 6mil sheath, you are never too cold or too warm. Skin<sup>2</sup> maintains an ideal body surface temperature of 34 °C regardless of the location. Diaphoresis sensors keep humidity levels within the normal range at all times, even under stress. You will feel as though you are wearing nothing at all.

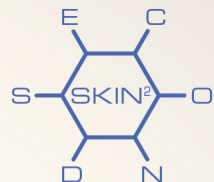

Skin<sup>2</sup> monitors all of your vital statistics and then medicates naturally using your body's endocrine medicine chest. You have never been healthier than in your Second Skin.

Of course, your Second Skin has a the industry's richest color palette, entirely programmable through your fingertip implants—including ten levels of transparency and translucency. Since you've got it, you may as well flaunt it.

For a free Skin<sup>2</sup> demonstration tap into our free Lightstream V demo at 45LS2.
