

TACTILE CONTACT THROUGH THE LUMINOUS IMPLANTS.

--ENABLES ME TO ACCESS MEMORIES.

I CAN CORRELATE YOUR ACTUAL EXPERIENCE AGAINST THAT OF THE CRIME, AND PLACE YOU AT THE SCENE. THE HUMAN CHIPSET--IMPLANTED IN ALMOST ALL HUMANS AS A CHILD--LOGS AND TAGS MEMORIES WITH THE PRECISE TIME AND GEO LOCATION. SO, TECHNICALLY, I'M JUST ACCESSING DATA.

AND THAT--

YOU READ MY MIND.

OUR CHIPSET WAS NEVER INTENDED AS A GATEWAY TO OUR SOUL. WHO ON EARTH AUTHORIZED THIS BREACH OF PERSONAL PRIVACY?

CHANCELLOR ZHANG--YOU NEEDN'T BE ALARMED. HUMANS ARE NOT CAPABLE OF ACCESSING AND PROCESSING THIS INFO WITHOUT PERMISSION OF THE USER. ONLY T-CLASS IS CURRENTLY AUTHORIZED TO--

I'M GLAD WE DIDN'T SHAKE HANDS! SO WHERE DOES YOUR DEGREE OF ERROR STAT COME FROM?

AGAIN, TECHNICALLY, THE STATISTIC IS ONE HUNDRED PERCENT, BUT THEORETICALLY, A MEMORY *COULD BE IMPLANTED* WITHOUT THE SUBJECT KNOWING, BUT THAT IS HIGHLY EXPERIMENTAL *AND CLASSIFIED*. NEVERTHELESS, WE WANTED TO BE AS ACCURATE AS POSSIBLE, CONTINGENT ON ANY POSSIBILITY. THIS: A VERY SMALL PERCENTAGE. AN ACCEPTABLE RISK.

THAT'S WHERE WE DIFFER. YOU'RE LOOKING FOR AN ACCEPTABLE RISK, I'M LOOKING FOR THE TRUTH.

SHE'S BEING ARGUMENTATIVE. AN EMOTIONAL RESPONSE.

AND WHAT IS TRUTH?

HAVE I STUMPED YOU ALREADY?

THEY TRAINED YOU UP RIGHT. AREN'T YOU GOING TO DRINK YOUR COFFEE?

MMM. AN ESPRESSO ROAST.

SYNTHS DRINKING COFFEE. WHAT'S THE POINT?

T-CLASS SPECIFICATIONS CALL FOR VIRTUAL HUMAN CHARACTERISTICS IN EVERY DETAIL.

BESIDES, THIS IS A TEST, ISN'T IT?

AND THAT'S WHERE THE COCKINESS COMES FROM.

OKAY. SMART GUY. STAND UP! LET'S SEE WHAT'S UNDER THAT SUIT.
